ABOUT VIDEOFEST

VideoFest is now the oldest and largest video festival in the United States, and continues to garner critical and popular acclaim. Since 1986, VideoFest has specialized in independent, alternative, and non-commercial media, presenting hard-to-find works rarely seen on television, in movie theaters, or elsewhere, despite their artistic excellence and cultural and social relevance. Even in a Web 2.0 environment where everything is seemingly available on the Internet, the VideoFest provides curatorial guidance, a critical voice in the wilderness navigating the vast and diverse landscape of media, helping to interpret its cultural and artistic significance. The event still provides a communal environment for real-time, face-to-face dialogue between makers and audiences.
